SCHIBELLI.COM

As a Full Stack Developer with extensive experience in web development and a keen interest in emerging technologies, I am committed to continuous growth in AI and Machine Learning. My goal is to leverage my expertise in NEXT.js, REACT, TypeScript, and other technologies, along with a proactive approach to integrating AI and Machine Learning, to innovate and drive impactful technological solutions. I aim to contribute to a dynamic team where I can apply and expand my skills, delivering cutting-edge projects that harness the potential of AI to enhance user experiences and operational efficiencies.

Experience

Full Stack Developer

INTRAWEB TECHNOLOGIES, MONTVILLE, NJ

November 2020 – Present

- Leveraged GitHub CoPilot and AI tools to accelerate the development of Schibelli.com, enhancing user experience and site performance with NEXT.js, TypeScript, REACT, and JSX to develop a decoupled WordPress frontend. This approach improved development speed, package management, scalability, performance, and user experience, supporting the site's future growth.
- Developed custom WordPress themes and plugins using PHP, JavaScript, HTML, and CSS, improving website functionality and user engagement for multiple clients. Skillfully programmed custom post types with an emphasis on backend PHP, showcasing versatility in various development techniques to tailor unique, functional, and engaging web experiences.
- Played a key role in cross-functional teams, enhancing project collaboration and efficiency by adopting Agile methodologies, resulting in a 20% faster project delivery time using various issue tracking and project management tools (i.e. JIRA, Monday, GitHub).

Full Stack Developer

EXECUTIVE FIVE STAR, MONTVILLE, NJ

April 2016 – November 2020

- Directed the development and management of the company's CMS using WordPress, enhancing content flexibility and user accessibility, employing HTML, CSS, JavaScript, and PHP to craft sophisticated landing pages and calls-to-action, aligning with strategic business goals.
- Implemented JavaScript and PHP to integrate the Limo Anywhere API, streamlining booking processes and improving customer service efficiency, enabling online booking functionalities that directly link customer reservations with the company's back-office dispatch system for automated driver allocation, thus enhancing operational efficiency.
- Developed a custom fleet management plugin with an Admin dashboard, optimizing vehicle tracking and operational efficiency, utilizing HTML, CSS, PHP, and JavaScript to provide comprehensive control and insights, thereby optimizing operational workflows.

Sr. Frontend Developer

ROBERT HALF TECHNOLOGY, PARSIPPANY, NJ

March 2013 – April 2016

- Collaborated with a team of internal and international developers to engineer a financial web application, employing Agile Scrum methodologies, and leveraging HTML, Sass, JavaScript, and AngularJS for optimal development.
- Engineered iOS sales aids within the Veeva framework, utilizing HTML, CSS, and JavaScript to ensure interactive and user-friendly applications.
- Designed and executed custom WordPress themes, tailoring each to meet specific client requirements and deliver exceptional user experiences.

Experience (continued)

Frontend Developer

LEVEL NINE CREATIVE, MERRITT ISLAND, FL

July 2009 – February 2013

- Developed and maintained content management systems like WordPress, overseeing installation, configuration, and troubleshooting. Diligently executed bug fixes, updates, and upgrades to enhance security and reliability of the system.
- Developed comprehensive client website projects using HTML, CSS, and JavaScript, focusing on dynamic and interactive user interfaces, enhancing user engagement and satisfaction through meticulous design and development.

Web Development Program Director

ANTHEM INSTITUTE, PARSIPPANY, NJ

January 2005 – June 2009

- Instructed classes of dedicated subjects of HTML, CSS, PHP, JavaScript, and MySQL to technical post-secondary adult learners.
- Facilitated partnerships with outside organizations including PearsonVUE for trade certification exams for both faculty and students.
- Oversaw campus compliance with Federal institutions and accrediting agencies, including ACCSCT that was required to allow financial aid to students.
- Managed multiple teams of 8 web development instructors on 4 campuses in the New Jersey Tri-State area.
