

John Schibelli

Full Stack Developer

As a skilled web developer, I have extensive experience in front-end development building web applications using Node.js, React.js, and MongoDB. My expertise in these technologies has allowed me to create highly scalable and responsive web applications that meet the needs of clients. My ability to work with different technologies and platforms has allowed me to create web applications that are both functional and aesthetically pleasing. I am passionate about staying up-to-date with the latest trends and technologies in web development, and I am always looking for new challenges to expand my skills.

Experience

FULL STACK DEVELOPER

INTRAWEB TECHNOLOGIES, MONTVILLE, NJ

November 2020 – Present

- Proven expertise in developing and maintaining dynamic content management systems such as WordPress. This includes utilizing a comprehensive tech stack comprising HTML, CSS, PHP, SASS, JavaScript, and React.js.
- Actively collaborated on various e-commerce projects, leveraging my skills in React.js to implement sophisticated features such as interactive UI components. This involvement significantly contributed to refining user experiences and integrating complex functionalities in a seamless manner.
- In-depth experience creating and updating reusable code libraries, with a focus on streamlining development lifecycles.

FULL STACK DEVELOPER

EXECUTIVE FIVE STAR, MONTVILLE, NJ

April 2016 – November 2020

- Developed company website using WordPress REST API as a headless CMS that would allow for custom integration of online booking and reservations into the reservations back-office and dispatch.
- Designed and developed a custom fleet management plug-in with an Admin dashboard using HTML, CSS PHP, and JavaScript.
- Assisted in wireframe concepts and produced HTML and CSS design mockups and prototypes to strengthen designs, enhance user experiences and improve site interactions to create a seamless user journey.

FULL STACK DEVELOPER

ROBERT HALF TECHNOLOGY, PARSIPPANY, NJ

March 2013 – April 2016

- Coordinated within a team of 10 internal developers including developers overseas to create a financial web application in an agile scrum development lifecycle utilizing HTML, Sass, JavaScript, and AngularJS.
- Developed iOS sales aids within the Veeva framework using HTML, CSS and JavaScript.
- Created and developed WordPress themes to client specifications.

Experience (continued)

FRONT-END DEVELOPER

LEVEL NINE CREATIVE, MERRITT ISLAND, FL

July 2009 – February 2013

- Developed and maintained content management systems such as WordPress, including installation, configuration, troubleshooting, bug fixes, and other updates and upgrades to ensure the system remains secure and reliable.
- Developed comprehensive client website projects utilizing HTML, CSS, and JavaScript to create dynamic, user-friendly websites.

WEB DEVELOPMENT PROGRAM DIRECTOR

ANTHEM INSTITUTE, PARSIPPANY, NJ

January 2005 – June 2009

- Instructed classes of dedicated subjects of HTML, CSS, PHP, JavaScript, and MySQL to technical post-secondary adult learners.
- Facilitated partnerships with outside organizations including PearsonVUE for trade certification exams for both faculty and students.
- Oversaw campus compliance with Federal institutions and accrediting agencies, including ACCSCT that was required to allow financial aid to students.
- Managed multiple teams of 8 web development instructors on 4 campuses in the New Jersey Tri-State area.

PAINTBOX ARTIST

CNBC (NBC, UNIVERSAL), ENGLEWOOD CLIFFS, NJ

July 2004 – April 2006

- Create “Live” on-air graphics for various financial cable news programs using Adobe products, including Photoshop, Illustrator, and AfterEffects.
- Created national affiliate station graphics that were to be utilized by the NBC network across the nation including graphics for NBC News.
- Created animated “lower-third” tickers including “Over-the-Shoulder” graphics that included story boxes and plasma screen segment graphics.
